

Angola:

- only 1 year of single age census data in 2014

Benin:

- wiggly AB (possibly due to DHS data that is also observed in the spline estimates?)
- smoothness in fertility

Burkina Faso:

- wiggly AB
- wiggly migration
- wiggly fertility

Burundi:

- wiggly AB
- shock in 1970 in GBD estimates?

Cameroon:

- only 1 year of single age census data in 2005
- wiggly AB

Chad:

- only 1 year of single age census data in 2009
- wiggly AB

Congo:

- inconsistent male and female lambda and B

Cote d'Ivoire:

- inconsistent male and female lambda and B

Eswatini:

- wiggly AB
- something wrong in the codes for baseline male pop

Gambia:

- no single age census data after 1993
- wrong estimates!

Guinea:

- only 1 year of single age census data in 2014
- wiggly AB

Kenya:

- wiggly AB (DHS data?)
- wiggly migration

Lesotho:

- census data too extreme?

Liberia:

Madagascar:

- only 1 year of single age census data in 2018
- wiggly epsilon
- insensibly low mortality pre DHS period

Mali:

- wiggly AB (DHS data)
- wiggly migration
- wiggly fertility
